### **DETAILED ACTION**

1. The terminal disclaimer filed on September 10, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,774,130, 6,103,730 and 5,807,861 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Willem Gadiano on November 10, 2004.

Amend the application as follow:

In the claims;

In Claim 47,

- a) Substitute formula I with the following formula:

b) In the last line, after “methyl”, insert “, and the dot line represent a single bond or double bond”

In claim 49, the last line, after “X is N(CH<sub>3</sub>),” delete “Y is NH, and R<sub>4</sub> is hydrogen” insert “and Y is NH”

The above amendments are to clearly define the claimed subject matters. In claim 47, it is noted that X and Y, as defined in the claim, can only be linked with single bond. In claim 49, “R<sub>4</sub> is hydrogen lack antecedent basis. In view of the amendments and the terminal disclaimers submitted September 10, 2004, the application is in condition for allowance.
